

Kaustav Purkayastha

Data Engineer — Big Data, Cloud Platforms & AI-Enabled Pipelines

+91-9365872396 | kaustavpurk2@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Data Engineer with **2+ years of experience** delivering large-scale data platforms in the **Financial Services** domain. Specialized in building production-grade **ETL/ELT pipelines** using **Python, PySpark, SQL, and AWS**, with hands-on expertise across **Databricks, Snowflake, Redshift, and dbt**. Proven track record of translating complex business logic into scalable systems, integrating **AI tooling (Amazon Bedrock, Claude)** to accelerate delivery, and partnering effectively with senior stakeholders.

TECHNICAL SKILLS

Programming Languages: Python, SQL, PySpark, Shell Scripting

Big Data & Processing: Apache Spark, Databricks, Hadoop (familiarity), Kafka (familiarity)

Cloud & Data Platforms: AWS (Redshift, S3, Glue, EC2, Aurora), Snowflake, dbt, Informatica IDMC

Databases: Oracle, PostgreSQL, MS SQL Server, Amazon Aurora, Amazon Redshift

Orchestration & DevOps: Stonebranch, Jenkins, Docker (familiarity), Git

Analytics & AI: Tableau Prep, Amazon Bedrock, Anthropic Claude

Methodologies: ETL/ELT, CDC, SCD, Data Modeling, Data Quality, Agile

PROFESSIONAL EXPERIENCE

Deloitte Consulting India Pvt. Ltd. (Deloitte US-India)

Kolkata, India

Associate Analyst (Associate Data Engineer)

Oct 2023 – Present

- Engineered **70+ Spark-based ETL jobs** in Informatica IDMC and loaded **60+ Redshift tables** with 25+ years of historical data using **ELT, CDC, SCD, and snapshot logic** for a Fortune 500 insurance client.
- Migrated 4+ Tableau Prep workflows into scalable **Redshift ELT pipelines** and converted complex Python annuity and survivorship calculations into optimized SQL, achieving **~98% data accuracy** versus legacy extracts.
- Integrated **Anthropic Claude** to optimize pipeline development, reducing development time by **~50%** and lowering compute costs while orchestrating ingestion via **AWS Glue, S3, EC2, and Stonebranch**.
- Reverse-engineered **500+ legacy tables** and authored **100+ Source-to-Target Mapping (STTM) documents**, enabling seamless integration and unifying Annuity and Life data models by resolving schema, mapping, and master data conflicts.

ACADEMIC PROJECT

Data Science Capstone – Lovely Professional University

2025

- Applying **data science and financial analytics** techniques using **Python, SQL, and modern ML libraries** as part of MCA coursework focused on Data Science & Finance.

EDUCATION

Lovely Professional University (LPU)

2024 – 2026

Master of Computer Applications (MCA), Data Science & Finance

Gurucharan College, Silchar

2020 – 2023

Bachelor of Science (Hons.), Computer Science

CERTIFICATIONS & RECOGNITION

- Databricks Certified Data Engineer Associate; Snowflake SnowPro Core Certified; Claude 101**
- Outstanding Performance Award (2x, FY25)**, Applause Award – Delivery Excellence, Rising Star – Top Campus Hire (FY24), Institutional Merit Scholarship Award (Graduation)
